Our own

1 · OBJECTIVE

one measurable sentence — what must it achieve?

2 · MATERIALS / INPUTS

what you give it: folder files, your own docs, data

3 · CONNECTORS IT NEEDS

web search · Drive/SharePoint · email · calendar · CRM · other systems

4 · DELIVERABLE

what it produces, in what format (e.g. a one-page briefing.md)

5 · SUCCESS CRITERIA

a BINARY checklist — how will it know it is done? (this powers the loop)

6 · THE LOOP

how it self-evaluates against the criteria and iterates (max 3 rounds)

7 · THE BRIDGE TO KONECTA

if this were real: which process, which account, who would own it?

Kolibri candidate — submit through the 11-step wizard. Owner:

DEMO DAY · 5 MIN: this card (1') · live demo of the loop (2') · the confession — what did NOT work (1') · the bridge (1')
