1 · OBJECTIVE *one measurable sentence - what must it achieve?*

2 · MATERIALS / INPUTS *what you give it: folder files, your own docs, data*

3 · CONNECTORS IT NEEDS *web search · Drive/SharePoint · email · calendar · CRM · other systems*

4 · DELIVERABLE *what it produces, in what format (e.g. a one-page briefing.md)*

5 · SUCCESS CRITERIA *a BINARY checklist - how will it know it is done? (this powers the loop)*

6 · THE LOOP *how it self-evaluates against the criteria and iterates (max 3 rounds)*

7 · THE BRIDGE TO KONECTA *if this were real: which process, which account, who would own it?*

Kolibri candidate - submit through the 11-step wizard. Owner:

DEMO DAY · 5 MIN: this card (1') · live demo of the loop (2') · the confession - what did NOT work (1') · the bridge (1')
